PRO CARTON

WATCH THE BEST VIDEOS OF

HOW? It can be animated, shot on any smart phone or video camera and should be suitable to be used on social media or broadcast media.

WHAT ARE SOME OF THE ADVANTAGES OF FOLDING CARTONS?

- **Renewable** – they are made of cartonboard which comes from trees
- **Recyclable** – cartons can be recycled 25 times and more and the recycling rate in Europe is 84,6%!
- **Biodegradable** – cartonboard will naturally degrade and not harm the environment
- **Sustainable** – more trees are planted than harvested in Europe
- **Brand communication** – cartons can be printed in unlimited number of colours with all sorts of special effects and are often used on premium quality goods to enhance brand image
- **Product protection** – cartons protect products and consumers and can help to reduce food waste!

There is more to learn about the design, communication and sustainability advantages of cartons!
Just visit our website > www.procarton.com
